Customer Comments

I ordered your spa scents because I am allergic to the artificial ingredients in most soaps in commercial bubble baths. Now I can enjoy a luxurious, calming bath even though I still have to use my allergenic soap!

- J. Marple

I came down with the flu two days before family guests were to arrive for a summer holiday. I had taken all the cold medicine available in the cabinet and nothing was putting a dent in my cold. I decided to jump into the tub to see if that would help me feel any better and noticed some of my wife's SpaScentSations she ordered. I had no idea that it was made from essential oils nor of the healing properties in them. I just thought it was bubble bath! Within about an hour I was feeling significantly better and normally the flu hangs on with me for about a week and this time it was gone within a day! Amazing...who knew? Thanks a million for your terrific products! And they even smell terrific ... Yum!

- T. Beresford

What can I say? I knew nothing about aromatherapy, but with your products am not only enjoying baths, but it's helping my arthritis like nothing else!

- P. Pyne
